

Subject: TEMPUS co-operation

Dear Sirs,

In this letter we kindly request you for assistance in transferring Kulob branch of Technological University of Tajikistan into the credit system of education.

Our branch starting from this year has been transferred into the credit system of education. Because of this we encounter with many problems as in organization of the teaching process and also in transferring teaching and normative materials according to the requirements of the new system of education.

Thus, we strongly need in you well-built experiences regarding the employment of credit system and we want to use the opportunities by TEMPUS program. As you know, due to the requirements of TEMPUS program the participation of partners from European countries and countries of Central Asia are necessary.

We request you to take up our suggestions and come up with your ideas concerning it. We are also ready to consider any suggestions from your side for co-operation in TEMPUS program and ERASMUS MUNDUS.

We hope for fruitful and prosperous co-operation and looking forward to hear from you.

Best regards,
Khurshed TeshaeV

PS. Kulob branch of Technological University of Tajikistan has following faculties: Agrotechnology, Technologies of Textile, Informational Technology and Economics.
